EDUCATION

Bachelor of Science in Computer Science – UBC Okanagan Sept 2022 – April 2026

- **Relevant Coursework:** Analysis of Algorithms, Computer Graphics, Data Structures, Machine Architecture, OOP, *Databases, *Human Computer Interaction, *Software Engineering
- **Data Science Minor** – Applied Regression Analysis, Data Analytics, Predicting Data, Time Series and Forecasting, *Machine Learning, *Sampling & Design, *Stochastic Modelling & Design

* In progress Fall 2024/Winter 2025

SKILLS

Soft: Adaptable, Independent, Motivated, Organized, Passionate, Responsible, Time Management

Programming Languages: CSS, EJS, Dart, HTML, Java, Javascript, Python, R, SQL

Libraries: Bootstrap, ExpressJS, Flutter, JQuery, JUnit5, NodeJS, Pygame, React

Software: Excel, Firebase, Git, Github, MySQL, Postgres, R-Studio, Tableau, VSCode

EXPERIENCE

Mobile Development Coach, Kelowna BC – SUO Coding Club Aug 2024 – Present

- Created and lead a series of workshops in mobile app development with Dart & Flutter teaching core fundamentals through building real-world mobile applications.
- Worked closely with other executives to organize events for the club, and represented the club positively by being involved and engaged in club events.

Summer Camp Leader, Regina SK – Code Ninjas June 2023 – Aug 2024

- Revamped a python camp teaching coding fundamentals in Python for kids aged 10-15 through coding pong in pygame, and lead camps instructing the core programming skills and concepts.
- Followed schedules of camp delivery, responsible for parents checking their children in and out of camp and cooperated with coworkers to perform various responsibilities.

Warehouse/Sales Associate, Regina SK – Staples Canada July 2021 – Aug 2022

- Completed associate responsibilities such as stocking shelves, assisting customers, ensuring a clean work environment while being flexible in assisting coworkers on other store-wide duties.
 - Apart of a three person warehouse team which received incoming inventory for grand opening and organized pallets of product to allow for optimized outflow of inventory from the warehouse.
-

PROJECTS

Side Questor Mobile App – Dart, Flutter, HiveDB

- Gamified task managing app allowing users to add/delete custom categories and tasks, each with their own progress bar to keep track and motivate users to complete their task list.

Personal Portfolio – HTML, CSS, Javascript, JQuery

- Designed and developed a responsive and visually pleasing personal website, following a neon aesthetic featuring a unique landing page, about, skills, projects and contact sections.

Wilderness Simulation – Java, JUnit5

- Performed a simulation of wolves & deer which outputs a visualization of time-steps in a grid utilizing OOP properties, abstract classes, and conducted unit tests to verify code logic.
